linkedin.com/in/pipit-lusianawati

Civil Infrastructure Engineering student at Institut Teknologi Sepuluh Nopember with a focus on water-related construction and hydraulic engineering. Experienced in hydrology and drainage analysis, supported by hands-on involvement in internship, field testing, and engineering projects.

Possesses strong analytical thinking, problem-solving skills, and the ability to work collaboratively in teams. Actively involved in organizations and competitions, demonstrating leadership, communication, and project management abilities. Highly motivated to develop practical engineering solutions, particularly in water infrastructure and flood control systems.

EDUCATION

Bachelor of Civil Infrastructure Engineering

2022 – 2026 (Expected)

Institut Teknologi Sepuluh Nopember (ITS) | Surabaya, Indonesia

Specialization: Water Building Construction Engineering

GPA: 3.64 / 4.00

Related Courses: Hydrology and Hydraulic Engineering, Irrigation Engineering Planning, Drainage and Flood Controlling, Surveying, Research Methodology

INTERNSHIP EXPERIENCE

Supervision Consultant Intern

Juli 2025 – November 2025

Cabean Dam Project | Indonesia

- Assisted in project progress monitoring and field opname activities
- Conducted quality control inspections on construction works
- Prepared monthly project reports
- Operated drone for site monitoring and documentation
- Performed field testing including water pressure tests and soil/geotechnical tests
- Evaluated construction material quality through on-site testing

PROJECT EXPERIENCE

Hydrology and Hydraulics Study – Bekasi–Cawang–Kampung Melayu Toll Road

2023

- Calculated design discharge using the Rational Method, modeled box culvert with Culvert Studio, and prepared progress presentation

Report Team – SID Irrigation Land Optimization, Madura

2025

- Prepared planning report for irrigation land optimization project

Drainage Study – Wisma Titan Employee Housing Complex KM.4

2025

- Conducted hydrological and hydraulic analyses for the planned drainage system

Drainage Design Study – Padel Court, Medan

2025

- Performed hydraulic design calculations for drainage system

ORGANIZATIONAL & COMMITTEE EXPERIENCE

Head of Media Department

2024

Ikatan Mahasiswa Magetan di Surabaya | Surabaya, Indonesia

- Controlled and oversaw performance of media staff members
- Coordinated and managed the organization's social media content plan

Staff of Event – Bridge Construction Competition Division

2023

D'Village 12th Edition | Surabaya, Indonesia

- Created competition concepts and developed timelines and competition guidelines
- Acted as moderator during the competition

Head of Bridge Construction Competition Division

2024

D'Village 13th Edition | Surabaya, Indonesia

- Led and provided direction in the division, managing team and division resources

Head of Basic Research Division

2024

Himpunan Mahasiswa Diploma Sipil (HMDS) | Surabaya, Indonesia

- Led division operations, monitored and evaluated performance of basic research staff
- Managed team resources and coordinated research activities

Staff of Relationship Division

2024

Trainer Keilmiah ITS | Surabaya, Indonesia

- Maintained institutional partnerships and communications

CORE COMPETENCIES

Engineering & Technical Skills

- | | |
|--|--|
| • 2D AutoCAD | • 3D SketchUp |
| • Autodesk Revit | • HEC-RAS (Hydraulic & Flood Analysis) |
| • ArcGIS & Google Earth Pro | • MS Project (Scheduling) |
| • Microsoft Office (Word, Excel, PowerPoint) | • Drone Operation & Site Documentation |

Personal & Leadership Skills

- | | |
|---------------------------------|----------------------------------|
| • Leadership & Team Management | • Scientific & Technical Writing |
| • Event Planning & Coordination | • Public Speaking & Moderation |

TRAINING & PARTICIPATION

- **Scientific Speaker at PKTI-TD 2024:** delivered a scientific presentation on engineering-related topics to an academic audience.
- **Master of Ceremony at PEKIL by Trainer Keilmiah ITS 2024:** facilitated and managed the flow of the event to ensure smooth coordination.
- **Training for Trainer Batch 13 by Trainer Keilmiah ITS 2024:** Completed intensive training focused on public speaking and knowledge delivery skills.
- **Participant – Civil National Expo Lomba Keairan 2024:** Competed in a national-level water engineering competition involving technical problem-solving.
- **Participant – Kompetisi Bangunan Air Indonesia 2024:** Engaged in a competition focusing on water infrastructure design and analysis.
- **Participant – Essay Competition by DISCO UNDIP 2025:** Developed and submitted an analytical essay on engineering or societal issues.
- **Participant – Paper Competition by CREATION UGM 2025:** Prepared a scientific paper addressing engineering challenges and innovations.

ACHIEVEMENTS & AWARDS

- **1st Winner – Essay Competition, ICEF IPB 2024:** achieved first place among national participants through outstanding analytical writing and ideas.
- **Best Paper – Call for Paper Competition, UPNVJ 2023:** recognized for producing the best scientific paper based on originality and research quality.
- **Finalist – Bridge Competition, Civil Expo UKP 2023:** selected as a finalist in a structural engineering competition focused on bridge design.
- **Finalist – Essay Competition, INVERS Universitas Udayana 2025:** reached the final stage by presenting a strong and competitive essay submission.
